Working together to support and celebrate migration

Helping an Asylum Seeker realise his dream career

When Ali first arrived in the UK he had a **lack of language skills and confidence**. He had no understanding of levels of English Language so did not know how long each level will take? He was unfamiliar with the education system, how to look or apply for a course. He **felt isolated** and didn't know where to start..

Since his initial assessment in June **Ali** has been attending **TW4E ESOL Zoom lessons** and has been very dedicated to his studies. He was **assessed at E2** in November 2019, and due to his commitment to study, he has **progressed by 3 levels** in his college assessment.

Outcomes and impact

As a result of the lessons, online support and careers advice he has gained enough confidence to enrol at **Bradford College** for **English level 2, Maths and Biology GCSE courses**. Hopefully by next September he will have all his GCSE qualifications, so he can progress onto pet grooming or arts and design courses and working towards a BTech Higher National Certificate
